

License(s) for 2024

Hi everyone,

It's almost the end of the year which means that it's time to renew the Blueriq licenses on the servers that run one or more Blueriq components, as most of them have an end date of 31 January 2024.

The new licenses are available on the customer license page for authorised users. The license page also shows the details for each specific license.

Please keep in mind that each server and each component (Encore/Studio, Runtime, BMA, Publisher) has its own license and that you have to renew each individual license. The new license will come into effect after a server restart.

Should you have any problems with the provided license(s) or if there is one missing, please contact me at support@blueriq.com.

Regards,

Nicole Pastoor
