

License for 2023

Hi everyone,

It's almost the end of the year which means that it's time to renew the Blueriq licenses on the servers that run one or more Blueriq components.

The new licenses are available on the customer license page for those users that are authorised to download the Blueriq software. The license page also shows the details for the specific license.

Please keep in mind that each server and each component has its own license and that you have to renew each individual license. The new license will come into effect after a server restart.

Should you have any problems with the provided license(s) or if there is one missing, please contact me at support@blueriq.com.

Regards,

Nicole Pastoor
