

# Apply for certification

[Back to the register](#)

## Apply for certification

Applying for Blueriq certification is easy: simply mail [certificering@blueriq.com](mailto:certificering@blueriq.com).

First, read the [Relevant documents](#): the *General Document* containing everything you need to know about certification.

After that, examine the *Regulation* and determine on which level you want to be certified. It is possible to use a *Template* to list project experience and referents, but that is not mandatory. Many applicants use another - more narrative - form to sum up their achievements in Blueriq.

When we receive the mail with the application, we will assess your request.

After approval, certification is a fact; you will be added to the register.

## Specialties

Some Blueriq specialists list their specialties. If you want to do this as well, simply mail to [certificering@blueriq.com](mailto:certificering@blueriq.com). We will update the register accordingly.

## Update a certification

To update a certification, the process is the same as for an application, a mail to [certificering@blueriq.com](mailto:certificering@blueriq.com) will suffice. Do this when you want to apply for a higher level or when you want to update your specialties.

## Costs for certification

Blueriq Certification is free of charge!
