

# Legend

[Back to the register](#)

## Specialties

In both tracks it is possible to add specialties.  
We use the following icons to depict these specialties:

Icon	Specialty
	Aggregates and Persistency
	Connectivity and Datamapping
	Decision Management and Logic
	Expressions
	Documents
	Dynamic Case Management
	Reporting
	Version management
	Front-end
	Test automation
	Blueriq infrastructure
<div>AQUIMA 6</div>	Specialty in Aquima Version 6
<div>AQUIMA 8</div>	Specialty in Aquima Version 8

## Coding

The coding of each certification is as follows:

Year . Product . Track . Level . Number

for example

2020 . BQ . BUS . EX . 017

Code	Explanation	
Year	The year in which the certificate has been issued	
Product	BQ AQ	Blueriq Aquima
Track	BUS TEC	Business track Technical track
Level	AS PR EX	Associate Professional Expert
Number	A unique number for each combination of Product, Track and Level	

## Removals

A specific certification can be removed from the register; it is no longer valid in such cases. This can be done because of the fact that the certification is expired or because of the fact that a higher certification is issued.
